EXPERIENCE

MERN Stack Intern
Kalbonyan Elmarsos

📅 Dec 2022 – Ongoing

- Acquired a solid foundation in programming fundamentals, starting with Python and then progressing to HTML, CSS, and modern responsive web design techniques.
- learned JavaScript, starting from the basics and gradually delving into advanced topics, expanding my knowledge and skills in this versatile language
- Developed proficiency in React 18, the latest version of the widely-used JavaScript framework alongside various tools and libraries within the React ecosystem like react router and redux toolkit and much more.
- Expanded my skill set to include backend development by learning Node.js, along with Express and MongoDB. This enabled me to venture into the realm of server-side programming and build robust web applications.

PROJECTS

Jobify
MERN Stack

A MERN stack job tracking app with CRUD operations, filtering, charts, demo user feature, and secure authentication using cookies.
